Membership Definitions

Component/Material Supplier / Master Distributor

Component/Material Supplier

Companies whose primary business in the rainscreen industry revolves around supplying material that you produce (or produce through contract manufacturing agreements). This includes companies that supply;

- Raw Cladding Material
- Finished Cladding Material
- Substructure components
- Fasteners
- Insulation
- Membranes (Sheet and Fluid Applied)
- Wall framing components
- Sheathing
- Other materials and accessories contributing to a rainscreen wall assembly

This category does not include companies whose primary business in the rainscreen is to fabricate or manipulate materials received from a component/material supplier unless such company also fits the master distributor category.

Master Distributor

Companies whose primary business revolves around serving as the national supplier of products and components produced by another entity or entities.

Testing Agency / Code Body

Testing Agency

Any organization whose primary business in the rainscreen industry is providing testing and/or certification services for rainscreen products.

Code Body

Any organization whose primary business in the rainscreen industry is producing and publishing building codes.

Any organization accredited as a standards development organization.

Associate Member (Including but not limited to the following):

Fabricator

Company who converts unfinished materials into a finished product.

Contractor

A company who directly or indirectly provides on-site labor services for installation of rainscreen products.

Distributor

Company who buys and resells non-exclusive rainscreen products and other construction materials on a local, regional or national level.

Independent Sales Representative

Company who represents manufacturers and sells materials or products for the manufacturer but is not employed by the manufacturer.

Industry Professionals**Trade Associations, Industry Groups, Universities, Technology and Trade Schools**

Self-explanatory

Architectural, Engineering, Consulting (AEC) firms

Firms whose primary role is to provide design and/or consulting services for the construction or renovation of buildings.

Specification Writing Firms

Firms who specialize in preparation of specification documents for rainscreen and other construction materials used in the construction or renovation of buildings.

Building Inspectors

Individuals who provide local or regional inspection services for rainscreen products and other construction materials and who are employed either privately or by state and local governments.
